

Position Title: AI Intern

Company Name: Cloudstok

Location: Noida

Employment Type: Intern to hire

Application Deadline: 02.09.25

About the Role

As an AI Intern, you will work closely with our research and engineering teams to design, train, and experiment with generative AI models. You will also get exposure to NLP, computer vision, and multimodal systems, while contributing to real-world AI-driven applications.

Key Responsibilities

- Assist in designing, training, and fine-tuning generative AI models (LLMs, diffusion models, multimodal systems, etc.).
- Conduct research on state-of-the-art AI techniques.
- Support prototype development and application integration.
- Evaluate model performance and suggest improvements.
- Document experiments and technical findings.

Requirements

- Currently pursuing or recently completed Bachelor's/Master's/PhD in Computer Science, AI/ML, Data Science, or related fields.
- Strong Python skills with knowledge of PyTorch / TensorFlow.
- Understanding of ML fundamentals and generative models.
- Curiosity and problem-solving mindset.

Preferred Skills (Nice to Have)

- Experience with Hugging Face, LangChain, or OpenAI APIs.
- Familiarity with cloud platforms (AWS, GCP, Azure).
- Contributions to open-source AI projects.
- Exposure to STT, TTS, or multimodal AI.

Internship Details

- **Duration:** 3 months

- **Location:** Onsite, Noida – Block C, First Floor, 71, Sector 63 Rd, Sector 63, Hazratpur Wajidpur, Uttar Pradesh 201309
- **Stipend:** ₹15,000 – ₹18,000 per month.
- **Post Confirmation:** 3.5-5LPA
