Profile Summary

Motivated Computer Science undergraduate with a specialization in AI/ML, experienced in building full-stack web applications and machine learning models. Skilled in Java, Python, SQL, and modern web technologies including React, Node.js, and Django. Hands-on experience developing real-world projects such as AI-driven interview systems, traffic sign classification models, and database-driven web platforms. Strong foundation in data structures, databases, and software development, with a focus on writing efficient, scalable, and user-centric solutions. Passionate about leveraging technology to solve practical problems and continuously learning emerging tools and frameworks.

Technical Skills and Tools

- **Programming:** SQL, Python, C/C++, HTML5, CSS3, JavaScript (ES6+), React.js, Node.JS, Tailwind CSS,
- **Tools/ Libraries/ OS:** NumPy, Pandas, Matplotlib, Scikit-learn, Vercel, Vite, GitHub, Windows, Linux (Kali Linux)
- **Database & Data Platforms:** SQL Server, MySQL, AWS (S3), SQLite
- **Data Analysis & Statistical Tools:** Power Query,
- **Techniques & Methods:** Machine Learning CNN Model Django.

Projects

AI Interview System

April 2026

- Developed an AI-powered mock interview platform that generates dynamic questions, evaluates responses, and provides automated feedback, simulating real-world interview scenarios.

Class 10th Result Finding Bot

Jan 2021 – Jan 2021

- Developed a Python-based bot to automate retrieval of Class 10 CBSE results using web scraping techniques, reducing manual effort and enabling efficient data extraction.

Traffic Sign Classification

Jun 2023 – Nov -2023

- Built a CNN-based image classification model to recognize traffic signs from images, applying data preprocessing, model training, and evaluation techniques for real-world autonomous driving applications.

Student Management System

Sep 2025 – Oct 2025

- Developed a web-based system to manage student records using CRUD operations and database integration, enabling efficient data handling and streamlined academic administration.

Portfolio Website | Django

Nov-2025 – Dec-2025

- Built and deployed a responsive portfolio web application using Django, featuring dynamic project management, contact functionality, and full-stack integration. Hosted on Vercel with optimized UI for cross-device compatibility.

Portfolio Website | Using CSS, JavaScript

Jan-2026 – Feb -2026

- Developed a responsive portfolio website showcasing projects and skills, featuring modern UI design, smooth navigation, and optimized performance; deployed on Vercel.

Portfolio Website | Using REACT.JS, Tailwind CSS Nodejs

Feb 2026 – Apr 2026

- Built a responsive and interactive portfolio web application using React and Tailwind CSS, featuring reusable components, modern UI design, and optimized performance; deployed on Vercel.

Education

- **Secondary Education, Army Public School, Dhaula Kuan** (CBSE - 75.2%) 2019
- **Senior Secondary Education, S. D. Public School, Punjabi Bagh, New Delhi** (CBSE – 70.6%) 2019 – 2021
- **Graduation, Maharaja Surajmal Institute of Technology, Janak Puri** (B.Tech (CSE- Specialized in AI/ML)- 75.7%) 2021 – 2025

Additional Courses/Certificate/Papers

- Additional courses: **Java (Anudeep Foundation), Artificial Intelligence and Machine Learning (AI-Shala)**
- Co-curricular Certificates: Part of NNS Club
- Created Research Paper on Hackers and Their Techniques for Satayam Publications

Hobbies

Online Gaming, Volleyball, Cricket, Badminton, Archery, Football, and Long Tennis
